### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. David Hey on June 13, 2005.

The application has been amended as follows:

Cancel non-elected claims 40-49.

The following is an examiner's statement of reasons for allowance: the prior art does not teach or suggest a process for producing nitrogen trifluoride by contacting a fluorine-containing feed stream with liquid ammonium acid fluoride by using either (a) a series of reactors, wherein each successive reactor contains liquid ammonium acid fluoride having a lower bulk melt acidity value than that of the immediately preceding reactor as required in the instant claim 1 or (b) a feed stream comprising both fluorine and hydrogen fluoride, wherein the hydrogen fluoride will cause the effective melt acidity to be higher when the feed stream is first contacted with the liquid ammonium acid fluoride as required in the instant claim 7.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
